ACCOMMODATION

The 2018 UCI Para-cycling Track World Championships will be held in the Barra Olympic Park, Rio de Janeiro. For your convenience, a selection of hotels in Rio de Janeiro has been made and you will find a list below. It is important to note that all preferred hotels were chosen for their location, both for the safety of their location and the proximity of the velodrome, in which the athletes can go cycling without any problems, if needed.

Rio de Janeiro is a tourist city and has a great offer of hotels, however, it is also a city with intense traffic jam. Keeping that in mind, choosing a hotel in an unfavorable place can represent prolonged periods lost in transit, causing disruption to the teams.

TRANSPORTATION

Traditionally in cycling competitions the nations rent their internal transport in the regular car rental companies (Europcar, AVIS, HERTZ and others), but in Brazil, unfortunately, this service is not possible.

Brazilian laws only allow drivers with a special license (e.g. a professional driver) to drive vehicles with more than 7 seats. As a result, regular rental companies do not offer vehicles with more than 7 seats in their portfolio.

For your convenience, the Organizing Committee has established an official agency for the event, who will arrange the internal transportation service including pick up and drop off (round trip) from the airport and transfers to the velodrome.

The transportation bookings must be requested through an online form available on the official website: www.2018uciparatrack.com.

After completing the online form, the invoice will be issued and sent to the e-mail informed in the form. The services will only be guaranteed upon confirmation of payment.
